Internet Postmaster: Duties and Responsibilities

Nick Christenson and Brad Knowles

About SAGE

SAGE is a Special Interest Group of the USENIX Association. Its goal is to serve the system administration community by:

- Offering conferences and training to enhance the technical and managerial capabilities of members of the profession
- Promoting activities that advance the state of the art or the community
- Providing tools, information, and services to assist system administrators and their organizations
- Establishing standards of professional excellence and recognizing those who attain them

SAGE offers its members professional and technical information through a variety of programs. Please see <http://www.sage.org> for more information.

Acknowledgments

The authors received the benefit of insight from a number of outstanding technical reviewers for this booklet. Specifically, we'd like to thank Strata R. Chalup, Esther Filderman, Jim Hickstein, Jim Lawson, and especially Gregory Shapiro for their comments and suggestions, which were extremely helpful. Of course, we take full responsibility for any errors, omissions, or just plain silliness.

We'd also like to thank the USENIX staff for helping us develop our raw ideas into this fully formed booklet. We'd like to explicitly thank copy editor Steve Gilmartin and, especially, series editor and jack-of-all-trades Jane-ellen Long for making the process of writing this booklet as easy as we could possibly imagine.
